

# CL910

# SYSTRONIC®

## Single, big chamber – Spray in air cleaner

- **Cleaning, rinsing, drying of PCB and DCBs**
- **Closed loop system**
- **Four rotating spraying arms**
- **Continuously filtration**
- **High efficient drying**
- **Completely built in stainless steel**
- **Optional DI-Water management**
- **Conductivity depending rinsing**

Capacity:	780x780mm / basket - 780mm height
Throughput :	20 cycles / day
Chemistry:	pH-neutral or alkaline / DI-water
Application:	PCB cleaning DCB cleaning
Outside dimensions:	1550x1550x2000mm
Usable chamber size:	780x780x780mm
Tank size:	2x 110Liter
Process time:	45-70min.
