BONDING THE STARS

Heavy Wire Wedge Bonder 5350

Bond System

Wire types Aluminium wire 100–500µm on 4" spool

Copper wire 100-300µm on 4" spool

Bondhead Wedge-Wedge for Heavy wire, Front- or Backcut

Standard tool 2" length (up to 19mm) Motorized wire spool (optional)

Programmable Voice-coil bond fore system

From 0 up to 1800cN

Ultrasonic System F&S Generator 58kHz (optional 40, 90, 120kHz)

Bonder Base

Axes

- Programmable linear Z-axis with 60mm stroke
- Programmable linear Y-axis with 20mm stroke
- Standard working height: 55 mm
- Manipulator in X and Y: 18x18 mm
- Equivalent to: 1: 7

Hardware

- Stepper motor driven Z-linear axis,
- Single-board PC, coin-guided teach-in,
- Internal hard disk, operation and menu-guided via shuttle wheel with confirmation button

Software

- Programmable single Bonds
- Loop shapes can be saved

Control Manual, semil-automatic

Dimensions W x D x H - 63 x 58 x 40 cm, weight approx. 30kg

Connections 100-230 VAC, 1 Phase, 50/60 Hz, max230 VA

 \emptyset 6mm standard-vacuum tubing

Heater controller Integrated in the machine 0-250 °C

The 53xx Series:

Our manual/semiautomatic bonder 5350 for heavy wire is ideally suited for R&D labs, prototype and pilot production and repair facilities who only have limited budgets but need highest bond quality.

Its most outstanding feature is a full-blown automatic wire cutting unit which guarantees perfectly reproducible wire cuts at single-micron precision without any risk of component damage. Thanks to a motorized Y-axis of 25 mm travel in addition to the motorized Z axis, it also offers perfectly identical bond tails through a programmable, automatic step-back.

Hard- and software of the 5350 are very similar to the 5310, 5330 and 53XX BDA thin-wire bonders from the 53xx family. This keeps training and maintenance cost extremely low. At the same time, the bond head is almost identical to that of the fully automatic bonders from F&S BONDTEC, ensuring bonds of the highest quality and making scale-up to larger production volumes trouble-free.

BONDING THE STARS

Workholder

Standard-Workholder for parts up to 2x2" with vacuum and mechanical clamping

Optional:

for parts up to 4x4"
workholder with mechanical
clamping

4x4" workholder with rubbered surface and mechanical clamping

Ø80mm Workholder With mechanical clamping
